

**Product Information - Last Updated in November 2022**

Product Code: 5060003110912		Brand: NORBORD	
2440x1220x18mm NORBORD OSB3 FSC® Certified Structural			
This product is suitable for STRUCTURAL use			
Length	2440mm	Width	1220mm
Thickness	18.00mm	Pieces per Pack	50
Average Density	600.00 kg/m3	Volume per Pack	2.6790m3
Service Class	Glue Bond	Formaldehyde Class	E1
Country of Manufacture	UK		
Manufacturer	Norbord Europe Ltd		
Environmental Status	FSC® MIX CREDIT: CU-COC-805640		
FSC® Product Type	W8.2 (Chipboard/OSB)		
PEFC™ Product Type	Not PEFC Certified		
Product Type	OSB3		
Product DOP	The Manufacturer's Declaration of Performance is available on request		

**Material Safety Data for Plywood and Wood Based Panels:**

Wood-based panels can be bulky and heavy and this needs to be considered when manual handling is performed. Further information can be obtained from the HSE website. <http://www.hse.gov.uk/pubns/indg318.htm>

Machining and processing (cutting or sanding for example) of wood-based panels will produce dust which can cause irritation to eyes and throat. The use of protective goggles and face-masks and suitable dust extraction equipment is therefore recommended. Further information can be obtained from the HSE website. <http://www.hse.gov.uk/woodworking/wooddust.htm>

Wood splinters can cause irritation or infection if they enter the skin - wearing suitable gloves is therefore recommended to protect the hands.

Under certain circumstances the release of small quantities of formaldehyde gas from wood-based panels containing formaldehyde based adhesives can cause irritation of the eyes and throat. Always ensure adequate ventilation is available in areas where products are stored or processed.

All wood-based products are flammable - store them in a cool, dry, well ventilated place away from sources of heat, flames or sparks.
